

2013 RIESLING VOM KALK - LIMESTONE - DRY

The Paterberg vinyard on top of a plateau south Nierstein. Rocky limestone interspersed with ancient shells, a comfortable home for grapevines and Riesling in particular.

WINE:

The Riesling vom Kalk - from limestone- is a complex, crisp and dry Riesling Spätleses. It shows the limestone typical, lime and lemon fruits combined with a herbal minerality. Intense, long lasting and very invigorating Riesling!

FOOD AFFINITIES

Wonderful with sushi, sashimi, grilled or steamed fish, grilled vegetables or plain and easy to good bread with salami, and Prosciutto. Just a great partner for light food.

Kalkstein - limestone soil

Alcohol content: 11,5% vol

residual sugar: 5,4g/L
