

2014 RIESLING VOM KALK - LIMESTONE - DRY

The Paterberg vinyard on top of a plateau south Nierstein. Rocky limestone interspersed with ancient shells, a comfortable home for grapevines and Riesling in particular.

WINE:

The Riesling vom Kalk - from limestone- is crisp, dry and refreshing wine with a low residual sugar level and a very lively acidity. It shows grapefruit, lemons, green and fresh combined with a almost salty minerality in the back.

FOOD AFFINITIES

Wonderful with sushi, sashimi, grilled or steamed fish, grilled vegetables. Just by itself or great a typical german styled dinner: good dark or white bread, good butter, salamis, ham, prosciutto.

Kalkstein - limestone soil

Alcohol content: 12,5% vol

residual sugar: 6,2g/L

acidity: 7,9
